

The 9th Conference of Colour

September 19-20th, 2013, Florence University, Italy

Aim of the conference is to encourage multi and interdisciplinary aggregation of the research centre and people that deal with color and light from a professional and scientific point of view. Conference will be opened the first day by a series of tutorials about different color related topic.

Works will continue with the presentations of the submitted papers.

This is the first deadline: February 8, 2013 - Submission of abstracts (max 3000 typefaces)

Invited talks:

- John Barbur : Variability in colour vision and novel methods of colour assessment
- John Mollon : Human perception of colour and its relationship to illumination
- Boris Pretzel : Lighting decisions for the Ardabil carpet based on the probability of visual perception and rates of fading
- Marisa Rodriguez-Carmona : Colour assessment in occupational environments and clinical applications
- Maria Michela Sassi : Perception of colour in the Greek aesthetic experience
